

DC

19 - 39V

-25 - +70°C

25.000 heures

Up to IP44

Possible options:

- Optomos relay
- 0-10V drive
- Voltage
- IP level
- Temperature range
- Speed sensor or alarm
- Conformity to some norms

ROSENBERG VENDÔME is part of the ROSENBERG Group. We design, manufacture and sell electric motors and fans applications of ETRI brand since 1945.

AIR IS OUR ELEMENT

Thanks to a good comprehension of your project, our 75 years **KNOW-HOW**, and our **ADDED VALUE** as technical support, we validate and optimise together a **CUSTOMIZED** solution meeting outstanding **QUALITY** standards. Consult us right from the beginning of your design!

THE AIR MOVEMENT GROUP

ETRI[®] 28VDC HIGH PERFORMANCE FANS

In addition to our High Performances fans 103T and 80T (115V/200V 400Hz), used in many aeronautical civil or military applications, we have developed 103D and 80D fans in 28VDC which is more and more used by our customers.

Our 103D and 80D are protected against transients until 80V, which is particularly adapted to avionics applications.

Our High Performance fans are appropriate to be used in severe environment: tropicalized fans, protected against salt spray, high vibrations, shocks,...

Such High Performance and resistant fans are required for:

- Ventilation of aircraft cabin
- Cooling of dashboard
- Aeronautics electronics
- Radar boxes

Fan	Dimension	l/s	mmH ₂ O	RPM	dBA
103D	80x117x50	128	80	10350	78
80D	113x153x88,5	60	203	23250	80
