skinner innovations

13 January 2017

Skinner Innovations is committed to managing the use of chemical substances in accordance with governmental regulations, industry standards, and customer-specific requirements in order to protect the environment. For each part listed in "Table A" below, this document provides:

- **EU RoHS Compliance Status.** EU RoHS status is declared per Directive 2011/65/EU and its subsequent amendments. Homogeneous materials of parts that are compliant to this legislation have less than 0.1% by weight each of lead, mercury, hexavalent chromium, PBB, and PBDE, and 0.01% by weight of cadmium. In situations where an exemption applies, the preceding limits, corresponding to the exempted substance(s), may be higher.

Skinner Innovations sole liability for incorrectly certifying a product shall be either replacement of the Skinner Innovations product or, alternatively and in the sole discretion of Skinner Innovations, return of the purchase price paid for the relevant Skinner Innovations product.
